W-Series Switch

Carling Technologies set the standard for performance and aesthetics with the widely successful, often imitated but never duplicated, V-Series rocker switches. Building further upon that platform, Carling has once again raised the bar with the fully sealed W-Series. The W-Series' traditional appearance features complete IP68 protection, including below the panel, where the critical connection is made from wiring harness. When used in conjunction with the integrated connector, the totally submersible W-Series provides a seal for up to ten individual wires, assuring compatibility with even the most complex circuitry.

The W-Series also offers a wide variety of accoutrements including endless illumination options featuring dual level and multicolor LEDs, progressive and hazard warning circuits, ratings up to 10A 24V, choice of paddle, rocker, locking or laser etched actuators, hundreds of standard legend choices and the electrical performance and reliability that is the hallmark of Carling Technologies products.

Key Features:

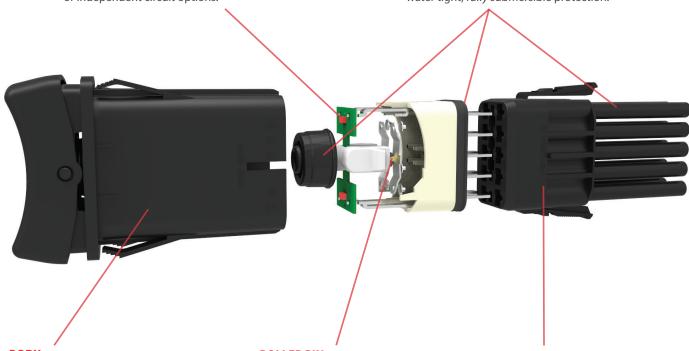

- Fully sealed and submersible
- IP68 protection including below the panel
- Tri-seal design
- Connector with twin locking tabs

Typical Applications:

- Marine equipment
- Transportation equipment

ILLUMINATIONTRI-SEAL DESIGNChoice of highly reliable SMT LED or
incandescent lighting with 21 dependent
or independent circuit options.Sealing at actuator, an insert molded neoprene
base seal, along with wire lead seals, assures
water tight, fully submersible protection.

BODY

One piece polyester 94V0 seamless body acts as an umbrella to protect critical internal components.

ROLLER PIN

Proven reliable mechanism is lubricant free and allows for 100k electrical and 250k mechanical cycles, and withstands extreme temperatures from -40°C to +85°C.

INTEGRATED CONNECTOR

Accommodates Tyco/Amp .110 junior power timer contacts with twin locking tabs to provide a safe, secure, sealed connection.

Electrical

Contact Rating .4VA @ 24VDC 10 amps, 3-24VDC Dielectric Strength 1500 Volts RMS Insulation Resistance 50 Megaohms

Initial Contact Resistance 10 milliohms max. @ 4 VDC

I ife 100,000 cycles Contacts Silver tin-oxide, 88/12

Terminals Copper with silver or gold plating.

Quick Connect terminations.

WCH CONNECTOR (190-31214-001)

Notes: WCH connector is intended for use with Tyco/Amp .110 Junior Power Timer, female contacts, and wire seals. For 14-16 awg wire, specify Tyco/Amp P/N 927766-3 For 16-20 awg wire, specify Tyco/Amp P/N 927770-3 Tyco/Amp cable seal P/N 828904-1 (20-18 awg wire) or P/N 828905-1 (16-14 awg wire) is required for each individual wire lead, and Tyco/Amp cable plug, P/N 828922-1, is required to seal each unused connector opening. Consult Tyco/Amp for the cable seal recommended for your specific wire gauge and thickness.
