

RockStar® IP68 housings

Waterproof housings for heavy duty connectors

The new IP68 housings have been designed for use in extreme environmental conditions. The housing features, including IP68 / IP69K protection degrees, high shock and vibration resistance, ensure trouble free operations when heavy duty connectors are used, especially for railway engineering, (renewable) energy applications and all other in extreme environmental conditions. Heavy duty connectors with these housings are also the perfect choice for protecting sensitive interfaces against electromagnetic interference.

Big
Special XXL plug hood version available for more wiring space.

Robust
An extended temperature range from -50 °C to 120 °C is realised by the use of a high quality silicone gasket.

High shock resistance
The optimised construction of the housing ensures a high level of shock resistance.

Permanent identification
The laser inscription ensures that permanent identification is possible.

Locking
Convenient screw-type locking system with internal and external hexagon drive.

RockStar® IP68 housings

Heavy duty connector housings for demanding applications

Technical Data

Base material		Die cast aluminium
Surface		
Top coat		Powder coating
Colour		Black, similar to RAL 9005
Locking element		
Screw locking		Size 1: M4
		Size 3 to 8: M6
Material		Stainless steel, corrosion-proof
Drive		Size 1: Inner hex AF 3, outer hex AF 7
		Size 3 to 8: Inner hex AF 5, outer hex AF 10
Housing seal		
Material		Silicone, foamed
Colour		red
Temperature limits		-50 °C ... 125 °C
Protection degree according to IEC 60529		IP 68
Protection degree according to DIN 40050 section 9		IP 69K
Note
