

AP.25J.01.10000D

Specification

Part No.	AP.25J.01.10000D
Product Name	25mm Three Stage Active GPS Patch Antenna
Feature	Highest Gain 40dB GPS active patch High performance 1.8-5V Low power consumption RoHS compliant

1. Introduction

The AP.25J active GPS patch antenna is the highest gain GPS high performance antenna currently available in the world. A 25mm GPS patch antenna with three

stage LNA delivers 40dB of gain. This product is suited for applications such as timing applications for base stations or out-building installations which need long

cable lengths to the receiver, typically over lengths exceeding 5M at RG174 and over 30M using low loss cable as CFD200 or LMR200.
