General-purpose Relay G2RS-(S)

Slim and Space-saving Power Plug-in Relay

- · Lockable test button models now available.
- Built-in mechanical operation indicator.
- Provided with nameplate.
- AC type is equipped with a coil-disconnection selfdiagnostic function (LED type).
- High switching power (1-pole: 10 A).
- Environment-friendly (Cd, Pb free).
- Wide range of Sockets also available.
- · RoHS Compliant.

Precautions

-/I\CAUTION-

Do not use the test button for any purpose other than testing. Be sure not to touch the test button accidentally as this will turn the contacts ON. Before using the test button, confirm that circuits, the load, and any other connected item will operate safely.

—∕!\CAUTION

Check that the test button is released before turning ON relay circuits.

—∕!\CAUTION

If the test button is pulled out too forcefully, it may bypass the momentary testing position and go straight into the locked position.

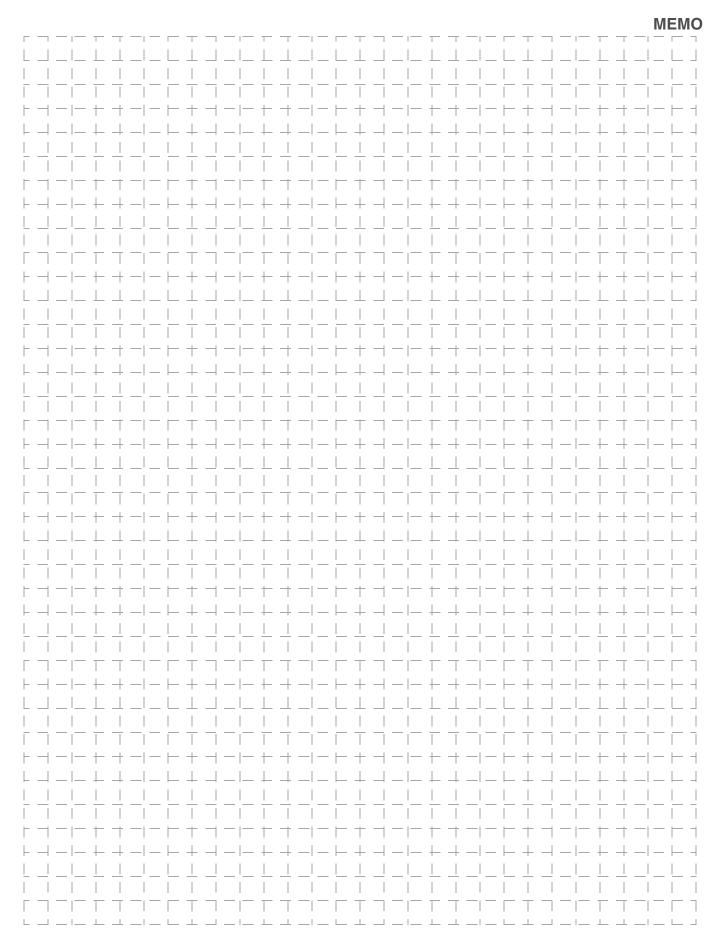

-/ CAUTION

Use an insulated tool when you operate the test button.

Precautions for P2RF-□-**S Connection**

- Do not move the screwdriver up, down, or from side to side while it is inserted in the hole. Doing so may cause damage to internal components (e.g., deformation of the clamp spring or cracks in the housing) or cause deterioration of insulation.
- Do not insert the screwdriver at an angle. Doing so may break the side of the socket and result in a short-circuit.
