

M4Q Series

Q-Motors

Offer Efficiency and Performance

- 4-pole QUAD design, shaded-pole motor with self-aligning, permanently lubricated sintec bearings; thermally (IP 42 standard, IP 54 available) and impedance protected.
- Square outer dimensions, 83x83mm is considered to be general standard.
- Versatile air movers with choice of impeller sizes blade pitches and accessories.
- Choice of air flow and air direction. From 113 to 1082 CFM. Exhaust over motor or inlet over motor.
- CCW rotation when looking at shaft. This ensures that the screws remain tight and in place.
- Contact application engineer for approvals.
