

1

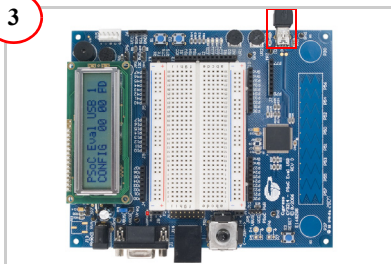

Remove the CY3214-PSoCEVALUSB Kit from package.

2

Ensure that P3, the power selection jumper (shunt), is placed on the first two pins (designated as VBUS).

3

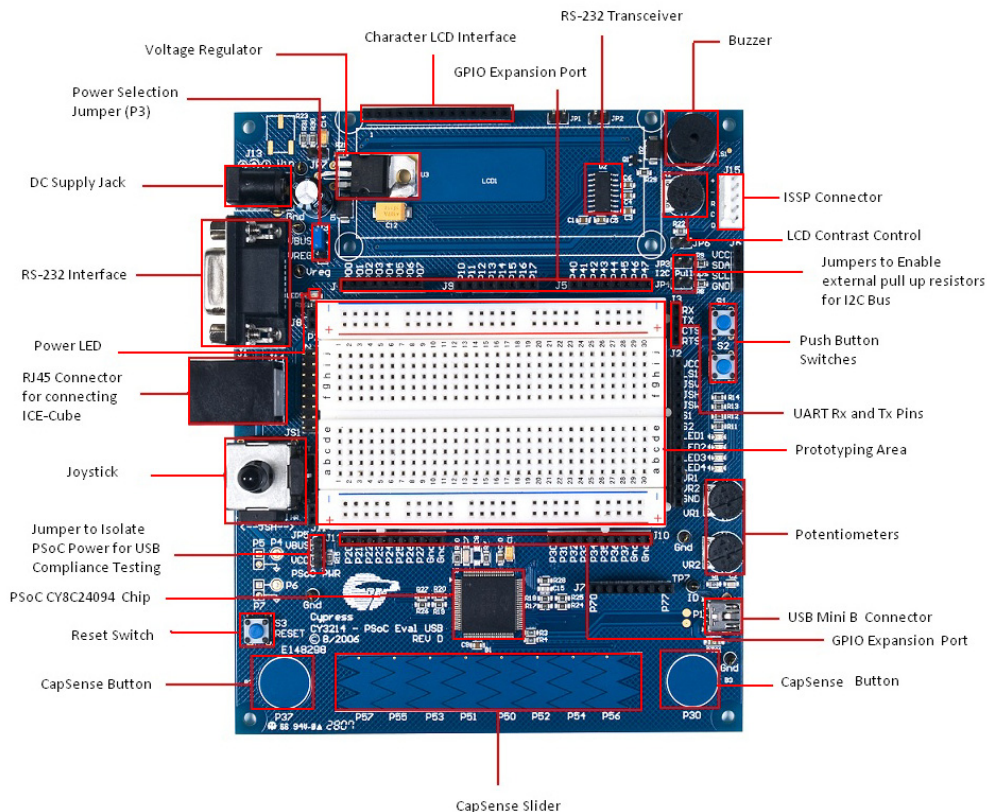

Connect the USB cable. LED5 lights up. The message "PSoC Eval USB 1" is displayed on the LCD. Observe that the mouse pointer on the PC screen moves in a square fashion.

4

Insert the kit CD in your PC's CD drive. Install the kit contents, PSoC Designer, and PSoC Programmer.
