■ PROTECTIVE COVERS

Y92A-48 Hard Plastic Cover

Y92A-48F1 Soft Plastic Cover

Two mounting clips help the soft plastic cover fit snugly over the front of the timer to protect against dirt and water. Timer settings can be changed when the cover is on. The cover is intended for use in areas where unusual service conditions do not exist.

Y92A-48B Hard Plastic Cover

The protective cover protects the front panel, particularly the time setting section, against dust, dirt, and water. It also prevents the set value from being altered due to accidental contact with the time setting knob.

- Note:
1. The Y92A-48B Protective Cover is made of a hard plastic and therefore it must be removed to change the timer set value.
 2. The Protective Cover cannot be mounted if the Panel Cover (sold separately) is used on the Timer.
 3. When using a front cover for flush mounting, use the Y92F-30 Adapter. The Y92F-73 or Y92F-74 Flush Mounting Adapter cannot be used.

Y92A-72F1 Soft Plastic Cover

Two mounting clips help the soft plastic cover fit snugly over the front of the timer to protect against dirt and water. Timer settings can be changed when the cover is on. The cover is intended for use in areas where unusual service conditions do not exist.

H5AN Cover 0377762-0

Y92A-72C Hard Plastic Cover

Hard plastic protective cover prevents accidental resetting. It also shields the front panel from dirt and water. The cover is intended for use in areas where unusual service conditions do not exist.

Y92A-48D Soft Plastic Cover

Soft plastic cover Y92A-48D snap onto the front of the timer to protect against dust and water. The soft plastic cover fits snugly over the front and allows settings to be changed. Covers are intended for use in areas where unusual service conditions do not exist.
