## 12" BNC INSTALLATION/REMOVAL TOOL

*This Tool is Perfect for High Density Panel Applications!*

The Amphenol® 12" BNC Installation/Removal Tool

The 12" BNC installation/removal tool has been designed and manufactured for the true Broadcast and Telco installation professional. This tool will out perform all the other BNC installation/removal tools in the market today, guaranteed!

The Barrel of the 12" BNC installation/removal tool is precision machined from high strength tool steel and then heat treated for long life. This barrel will NOT stretch. This tool also has: a high strength tool steel shaft, a wider cable slot to fit over larger OD cables, a rust resistant clear zinc plating, an extruded and polished

resin handle and it is made in the USA. The 12" BNC installation/removal tool is available individually bagged for peg hooks thus facilitating ease in marking and packaging.

### Applications

- ¥ Use to insert and remove BNC connectors in high density digital video patchbays.
- ¥ Wider barrel slot fits over Canare L-7CFB and Belden 9292 cables.
- ¥ Use to insert and remove BNC connectors in high density Digital cross connect systems.
