The TORXPlus® Advantage

The TorxPlus® Drive System offers 100% improvement in driver bit fatigue & 25% average improvement in driver bit torsional strength. In addition its unique design provides optimum torque transfer & eliminates the need for excessive end load pressure while driving the fastener. The TorxPlus® configuration also virtually eliminates tool "camout" & slippage that can damage the head of the fastener and cause reduced tool life.

- Broad Surface For Driving
- Features 0° Drive Angle Between The Fastener & Driver
- Greater Engagement Depth
