

SPDC400-4W

DC-DC step down power supply

Features

- Module DC-DC step down single output
- Wide range input voltage: 100÷370 V_{dc}
- Output power: 4.0 W typ.
- Output voltage precision 5%
- Output short-circuit protection
- No heatsink required
- Not latching overload and short-circuit protection
- MTBF > 1.000.000 hours $(T_A = 25 \, ^{\circ}C)$
- Encapsulated or open frame packages
- Comb insertion
- RoHS compliant
- Module weight: 9 grams typ.

Description

ST's power modules are highly integrated, high efficiency switch mode converters.

The SPDC400-4W (10) Icolated series delivers 4 W at -12 V from DC input that is the rectified universal AC

It is an innediate drop-in solution requiring no additional external circuitry.

The power supply modules are suited for auxiliary power requirements in appliance, industrial and communication applications.

The open frame version is intended to offer a low-cost version of ST's easy to use, compact size power modules.
