

# SPDCPOE03

# Power over ethernet 10 W module

Preliminary data

### **Features**

- Input voltage range: 38.5 V to 60 V
- 10 W output
- Based on ST devices integrating standard PoE interface and current mode PVM controller
- IEEE 802.3af compliant (PoE standard)
- Class 0 (zero), 0-12.96 W input
- Output voltage 3.3 V
- Output current 3 A
- Output voltage ± 5 %
- Ripple 1 % rms
- Transient response ±5 %, ½ load to full load
- Operating temperature range -40 °C to 70 °C
- Input transient suppressor
- Under voltage lockout
- Soft-start
- Short circuit protection
- 1500 VDC input/output insulation
- Input and output will be remally maintained within SELV lim?
- Very compact size, about 86x24.2x17 mm
- Vertical Tr:1 package
- RollS compliant
- UL 94V-0 flammability

# Applications

- The larget applications are small low power remote IP appliances.
- Security system, doors access, cameras, alarms
- Displays
- Public address systems
- Wireless access point
- Environmental control
- Telemetry
- Remote environmental monitoring

#### Table 1. Device summary

Order code	Nominal input voltage	Nominal output voltage	Max efficiency	Nominal power
SPDCPOE03	48 V	3.3 V	TBD %	10 W

Description SPDCPOE03

# 1 Description

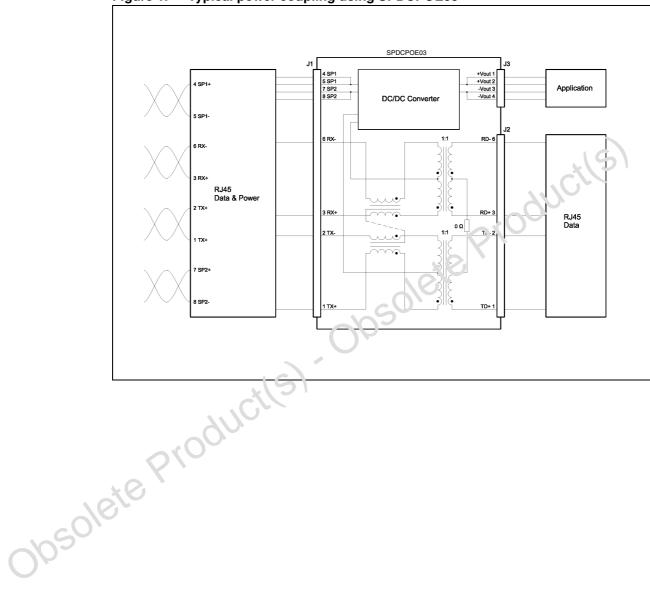

SPDCPOE03 is a power module specifically designed to provide an isolated, low-voltage power source to a remote powered device (PD) in power over ethernet (PoE) applications. SPDCPOE03 has full functional compliance with IEEE802.3af. It is designed to extract power from Ethernet cable when sourced by power sourcing equipment (PSE) also conforming to IEEE802.3af. SPDCPOE03 is rated 10 W and incorporate PD detection and PD classification current signatures required for the PSE. The module is compatible with PD classifications class 0. In addition to a fully integrated DC-DC converter, each SPDCPOE03 power module incorporates internal input diode bridges to support both data line and spare line pair standard ethernet connections, a transient suppressor for input over-voltage protection, and an EMI filter to ensure noise compatibility with Ethernet data signals. Other features include: input under voltage lockout (UVLO), soft-start, over-current and short-circuit protection.

Table 2. Pin description

	Table 2.	Pin description		
	No	Pin name	I/O	L excription
	J1-1	TX +	I	⊆thernet in data line
	J1-2	TX -	I	Ethernet in data line
	J1-3	RX +	L	Ethernet in data line
	J1-4	SP1	· O	Ethernet in spare line
	J1-5	SP1		Ethernet in spare line
	J1-6	RX -	Ι	Ethernet in data line
