

ODC-59 SERIES OVERHEAD DOOR CONTACT

ODC-59 Mini shown

- UL and ULC listed
- 2" operating gap
- HG - 7" Horizontal gap
- 24" stainless steel armored cable
- Adjustable, aluminum L bracket
- Hermetically sealed reed switch

Application

The ODC-59 Series Overhead Door Contacts are exclusively designed for rugged high traffic installations. The reed switch is hermetically sealed with a PVC shock absorber enclosed within a solid aluminum housing. Installation wires are protected in a 24" stainless steel armored cable. The ODC-59 Series magnet is mounted on an adjustable L shaped bracket designed for greater flexibility, universal mounting, greater pulling power, and to provide a professional installation appearance.

The ODC-59-HG (horizontal gap) is designed as a solution for damaged or loose fitting doors.

The ODC-59 MINI offers all the same great features in a smaller size for greater installation flexibility. (Not ULC listed)

ODC-59 Wiring Designations

With Magnet Installed:

Red = Normally-Open (N.O.)	Black = Common (Com)	Green = Normally-Closed (N.C.)
